McTeggart Motors' Safety Corner

"THE PRECEPT OF SAFETY"

BE CAREFUL—THE LIFE YOU SAVE MAY BE YOUR OWN

BE PRACTICAL—HELP THE OTHER FELLOW ACT SAFELY, TOO

BE POSITIVE—NEGATIVE SAFETY IS NEVER SAFE

BE COOPERATIVE—DON'T DOUBLE-CROSS

BE A GOOD CANADIAN—SAFETY MAY NOT ALWAYS BE A LUDICRUS, BUT IT IS ALWAYS A MENTAL OBSTACLE

WOLF YIELD
Cows increase their milk production up to 50 per cent when they are milked from hand to hand. Drinking water, according to recent experiments in Illinois, is the important factor in cow production. Lactating cows get only one 60 seconds daily to 151 per cent water consumed by ground water.

Merry Christmas

One wish is good and two are
better. So, a Merry Christmas
and a Happy New Year to
you.

To our faithful old friends, to our devoted new friends
and to those whose friendship we hope to earn, we wish a
most cheerful Christmas and a New Year filled with all the
good things in life—health, happiness and enduring peace.
We extend this greeting, not because it is the customary
thing to do but because it is a sentiment genuinely felt, for as
the years go by our appreciation of cherished friendship be-
comes greater and greater.

PAGE'S DRUG STORE

**Peace...
Good Will...**

Everywhere, among good people, there exists a longing to make
our world tranquil and prosperous—a desire for men to unite for peace,
good will and understanding. For from good will comes
forbearance and from understanding, a better way of life.
And what better time than Christmas for every man to renew the realization
that all our good human relationships—yes, even our business
relationships, are based upon our faith in God and our fellow man. Only through this
faith can we secure the continuance of freedom without fear—tolerance without tyranny—democracy and lasting peace.

It is in this spirit of good fellowship that we wish everyone—
A Merry Christmas and a Very Happy New Year!

The Annual Meeting of Shareholders The Royal Bank of Canada

Voluntary Curb on Spending
Would Speed Re-armament and Preserve Our Free Economy

Physical controls useful but no substitute for a real attack on inflation. Pro-military expenditures must be cut. President proposes four point anti-inflation programme

How the inflationary spiral has been under the very bones of the Canadian economy and the positive steps which should be taken now to meet this threat were emphasized by James MacRae, President of the Royal Bank of Canada, at the annual meeting of shareholders held last night at the Hotel Vancouver.

The speaker was joined by Sir John G. Diefenbaker, Minister of Finance, and Sir James MacRae, President of the Royal Bank of Canada, in a discussion of the current economic situation and the need for a real attack on inflation.

June 11, 1940 - Do You Remember?

From The Files

There has been a great deal of talk about the "lost" years of the 1940s. But the real story is the one that is being told in the files of the Royal Bank of Canada.

The General Manager reports 2 million depositing accounts. This is a testament to the confidence of the Canadian people in the Royal Bank of Canada.

Plan New Schools

An important question before the city of St. Louis is the question of the number of schools to be built for the next year. The city board of education is now considering the question of the number of schools to be built for the next year. THE MARKET
CHANGE OF POLICY

In view of the fact that higher prices continue to prevail in the food line, THE MARKET has chosen to change its policy to "CASH AND CARRY" in order to reduce the cost of food prices to their customers.

Commencing Feb. 1, 1934, all purchases of THE MARKET will be for CASH. All our delivery service will be discontinued. Because these services can be obtained you will be able to shop at greater savings.

To continue purchase of our savings passed on to you—visit the "Market Independent" each Thursday, or better still, SHOP WITH US.

We also wish to advise that our faithful customers who had it inconvenient to pay cash for each purchase, we are opening DEPOSIT ACCOUNTS for which we shall credit a 5% DIVIDEND at time of deposit.

We ask your cooperation from this date and want you to know that we appreciate the patronage you have given us in the past. We sincerely hope that you will approve of this modern way of doing business and continue to give THE MARKET your patronage when buying your requirements.

Annual Meeting M.D. Stettler Hears Reports

Members of the Stettler Medical Association met for their annual meeting at the home of Dr. J. J. Harrison, on Thursday, February 23, 1951.

The meeting was called to order by Dr. J. J. Harrison, who acted as the host for the occasion.

Dr. Harrison's report for the past year was read and approved. The report showed a steady increase in the number of patients treated, and a high standard of service was maintained.

Dr. Harrison also reported on the financial affairs of the association, which were in good standing.

The meeting was adjourned at 10:30 p.m.

NEW INDUSTRY ... moves into Stettler!

Brian Crawford

Gordon Turner

are pleased to announce their acquisition of property in Stettler, for a bulk plant to service the surrounding territory with Lunagas...

for Cooking, Heating, and for Truck and Tractor use!

"LUNAGAS"

"Liquefied Petroleum" Propane is now available to the residents of Stettler and District. Lunagas comes to you direct from the gas conservation plant at Devon. It has a rating of approximately 2,550 B.T.U.'s per cu ft, as compared to 1,500 B.T.U.'s for natural gas.

THE ROYAL BANK OF CANADA

In step with growing needs...

NEW INDUSTRIES, new communications, new sources of oil and iron and power... Canada moves on with amazing strides.

And with this expansion come added calls for every form of banking service. Your chartered banks have moved ahead in step with these growing requirements. That is why it now takes 45,000 men and women to do the banking of Canadians — almost double the number of ten years ago. That is why there are now 3,700 branches to serve the expanded needs.

Wherever initiative and growth demand it, banking is there — claiming your constant confidence.

Quoted Book Treatment Important

The book treatment of a story is a very important factor in its success. A good book treatment can make a story a bestseller, while a poor one can make it a failure. The book treatment is a summary of the story, and it is the first thing that a publisher or reader will see. It is therefore very important that it be well written and that it accurately represent the story.

180 men, most of them local, will be employed by P. & O. (Construction Company) when completed around 25 persons will be needed and most of these will be supplied by the Government. There will be of course a number of highly trained technicians.

Mr. Gribble said that construction will begin early after the summer holidays, depending on the nature of the steel, it is planned to complete the refinery during 1961.

The commencement of the refinery was made last week by Mr. Jackson and set the town of Kuching and the Indonesians very low of the townsmen had any knowledge of what the refinery would mean to Sarawak, but it was said it was bound to be a success. In addition to increased employment and its steady progress, the opening of the refinery in Kuching would mark the beginning of a new era in industrial expansion in Sarawak.

According to Mr. Gribble's recollection, the refinery was the only refinery in the Malay World last Thursday, the refinery was expected to produce 100,000 barrels per day. It will be the first modern crude oil processing plant in the Borneo area.

Ten Driving Rules For Economy

1. Drive at a steady speed. A steady speed of 55 m.p.h. will give you the best mileage. A speed of 60 m.p.h. will give you about 10 per cent less mileage. A speed of 70 m.p.h. will give you about 20 per cent less mileage. A speed of 80 m.p.h. will give you about 30 per cent less mileage. A speed of 90 m.p.h. will give you about 40 per cent less mileage. A speed of 100 m.p.h. will give you about 50 per cent less mileage.
2. Avoid sudden starts and stops. Sudden starts and stops will waste a lot of gas. Try to keep a steady speed and avoid sudden changes in speed.
3. Use the correct gear. Use the lowest gear that will keep the engine running smoothly. Do not shift to a higher gear until the engine has slowed down.
4. Avoid idling. Do not let the engine idle for more than a minute at a time. Turn off the engine if you are stopped for more than a minute.
5. Keep your tires properly inflated. Tires that are under-inflated will waste a lot of gas. Check your tires regularly and inflate them to the correct pressure.
6. Avoid excessive use of the air conditioner. The air conditioner will use a lot of gas. Try to keep the windows closed and use the air conditioner only when necessary.
7. Avoid excessive use of the headlights. The headlights will use a lot of gas. Turn them off when you are not using them.
8. Avoid excessive use of the horn. The horn will use a lot of gas. Use it only when necessary.
9. Avoid excessive use of the wipers. The wipers will use a lot of gas. Use them only when necessary.
10. Avoid excessive use of the brakes. The brakes will use a lot of gas. Try to keep a steady speed and avoid sudden stops.

Farm Slaughtering Of Animals

Unsanitary practices and disposal of animals on the farms as well as in the lots of large quantities of meat every year, especially during the hot weather, L. H. Vinland, Supervisor of Poultry, Food and Livestock, Alberta Department of Agriculture, suggests that a great deal of this loss, as well as of flavor in meats, can be avoided if the following precautions are followed:

All animals should be slaughtered and held in a lairage for approximately 24 hours before slaughtering. Feed should be withheld but plenty of drinking water made available during

Safety Projects Are Canceled By Big Highway Program

It is announced on the part of the Alberta Highway Commission that the safety projects which were to be carried out in the province during the current year have been canceled. The reason for this is that the province has decided to devote its resources to the construction of a new highway system. The safety projects which were to be carried out included the installation of guard rails, the construction of safety barriers, and the installation of safety signs. The highway commission has decided that these projects are no longer necessary, as the new highway system will provide a safer road network for the province.

Homes & School News

The next regular meeting of the Homes and School Association will be held at the Washington Hotel on Friday afternoon, Jan. 10, 8 o'clock.

A black and white illustration of a person in a dark room, possibly a bathroom. The person is standing in front of a sink and looking into a mirror. The room is dimly lit, with light coming from a window or mirror. The person is wearing a dark shirt and pants. The illustration is simple and graphic, with bold lines and a limited color palette.

Public Utility Commissioners Have Many and Varied Duties

Chief responsibilities of the Board of Public Utility Commissioners in Saskatchewan are in regulating the rates charged by utility companies for the supply of electricity, gas, water, and telephone service to the people of the province.

The Board also has the duty of supervising the construction and operation of public utility systems, and of ensuring that they are operated in a safe and efficient manner.

The Board is composed of five members, appointed by the Lieutenant Governor in Council, and it meets regularly to discuss and decide on matters relating to public utilities.

People At Work ... They Don't Want To Retire

By Mr. Seymour L. Christman
New York Times

Industrialists who want every factory worker to stay on the job until he is 65 or 70, or even 80, are not alone in their desire. Many workers, too, are not ready to retire. They have a lot to say about it.

It is not only the workers who are not ready to retire. Many industrialists, too, are not ready to let their workers go. They want to keep them on the job as long as they can.

But the fact is that workers don't want to retire. They want to stay on the job as long as they can. They want to work until they are 65 or 70, or even 80.

There are many reasons for this. One is that workers have a lot of money saved up. They don't need to work to live. Another is that workers have a lot of health insurance. They don't need to work to get it. A third is that workers have a lot of pension plans. They don't need to work to get them.

But the fact is that workers don't want to retire. They want to stay on the job as long as they can. They want to work until they are 65 or 70, or even 80.

Season's Greetings

It is our custom with that long
after Christmas Day is gone,
you may only in absence
remember the best season

And throughout the New Year
may there come to you all the
prosperity of the South,
Happiness and Enduring
Felicity

As a young man of Christmas Night
Brought me to this new world
May all be born and all be bright
In the hearts of our friends this day.
A Merry Christmas and
a Happy New Year to all.

But after leaving Idaho Falls, there was a few miles left to be surmounted, and as we moved along, cars were seen on each side of the highway stranded in snow drifts, while 6 or 10 wheels could not move at all. This

General Eisenhower qualified to be President when he took office — as a Democrat but compromised when he learned he was a Republican — such reasoning would hardly win a passing grade in a class on logic and writing.

The Annual Meeting of Shareholders The Royal Bank of Canada

Industrial Development and Free Trade can be achieved Together says President

Supports long range programme to speed
growth and bring prices closer to U.S. levels.
"Some danger to long budget surplus."
"Several saving, possible taxes."

Share for a few days and the shareholders of the Royal Bank of Canada met in the annual meeting of shareholders at the Royal Bank of Canada, Toronto, on Wednesday, January 21, 1942. The meeting was held in the Grand Ballroom of the Royal Bank of Canada, Toronto, and was attended by a large number of shareholders and members of the bank's staff.

The meeting was presided over by the President of the bank, Mr. J. H. Macdonald, who in his opening address, stressed the importance of industrial development and free trade in the future of the Canadian economy.

Mr. Macdonald stated that the bank's policy was to support a long range programme to speed growth and bring prices closer to U.S. levels. He also stated that the bank was in favour of a budget surplus, but that there was some danger to this if the government continued to spend heavily.

He also stated that the bank was in favour of several saving measures, including a reduction in the income tax rate on dividends, and a reduction in the corporate tax rate.

He also stated that the bank was in favour of a reduction in the income tax rate on dividends, and a reduction in the corporate tax rate.

ROYAL BANK'S ADVISORY BOARD

The Advisory Board of the Royal Bank of Canada met on Wednesday, January 21, 1942, at the bank's headquarters in Toronto.

The board was presided over by the President of the bank, Mr. J. H. Macdonald, and consisted of a number of prominent business and financial leaders.

The board discussed a number of matters, including the bank's policy on industrial development and free trade, and the bank's views on the government's budget and tax policy.

The board also discussed the bank's views on the government's policy on the war effort, and the bank's views on the government's policy on the economy.

His own branch...

He's not a lot behind him... and a lot still ahead, now he becomes manager of his own branch.

Years of work and study and growing responsibility have prepared him. He now has a lot of Canada as his personal horizon. He got to know the people in farming, suburban and industrial communities, and how they use the bank.

Now he takes over from the man who moves up... and the road to the top is open for him.

Call upon the manager of your chartered bank... and the road to the top is open for him.

COURTESY AND SAFETY GO HAND-IN-HAND

- OBSERVE AND PRACTICE THESE:
1. Use hand signals to keep the driver behind informed.
 2. Observe all red, yellow and green lights.
 3. Keep on your own side of the road.
 4. When to do so, use the right-of-way sign.
 5. When to do so, use the right-of-way sign.
 6. Give the pedestrian the right-of-way.
 7. Always remember you are the "other guy" about the driver behind you. When you make a move, make it clear to him.

IMPLEMENT PRICES ARE LOW
to compare with prices of other supplies the former buys

The outstanding achievement of Massey-Harris in keeping the prices of its Canadian-made products at a low level of increase over 1941, is clearly shown by the above chart of price indexes.

All commodities are shown 75% higher than 1941 raw materials are 98.2% higher; however, Massey-Harris Canadian-made implements have increased only 66.2%.

The continued great world demand for labor-saving farm equipment has given a volume permitting high operating efficiency in relation to production and selling costs, making possible the partial absorption of the increased cost of materials and labor.

With the scarcity and high cost of experienced field, farmers find in modern machinery the means to maintain high volume production at low operating cost.

CONCRETE AND CEMENTED SOIL

CHINA ROAD BUILDING

PAVING (TYP)

Our job is to provide and guarantee the best and longest lasting concrete and cemented soil.

Mr. Peterson had to make a choice

— whether to buy a **FARM STORAGE TANK**

or a **TEXACO** product.

Mr. Peterson chose the **FARM STORAGE TANK** because it was a safe investment and it would give him a good return on his money.

Mr. Peterson's choice was a **TEXACO** product.

"I put away my hard-earned money"

This young bank depositor recently wrote to his bank manager:

"I made a goal of \$1,000 for this year. It is two years since I opened the account with this bank. I now have \$1,000. I put away my hard-earned money. I will keep it in this bank. I do not want to touch it for the time being."

Building up a bank account means work and merit. But Canadians know the value of having savings handy in times of opportunity or need. They maintain 75 million savings accounts in the chartered banks—almost twice as many as ten years ago. At the same time, bank staffs have almost doubled. That, and higher wages, have increased bank payrolls almost three times.

More people use the banks, more people work for the banks than ever before.

Golden Wedding
Anniversary
Mr. and Mrs. William McLeod

Mr. and Mrs. William McLeod celebrated their golden wedding anniversary on Thursday, June 11, 1953, at their home in Stettner. The celebration was a joyous occasion for the couple, who have been married for 50 years.

The couple was joined by a large number of friends and family members for the celebration. The guests enjoyed a delicious meal and a fine program of entertainment.

The celebration was a fitting tribute to the couple's long and happy marriage. The guests were all in good luck and the celebration was a great success.

NEW C.N.R. LINE WILL SERVE KITIMAT

The Canadian National Railway has announced that it will build a new line from Kitimat to Bulkley Valley. The line will be 100 miles long and will serve the Bulkley Valley area. The line will be built by the C.N.R. and will be completed by 1957.

Crops Benefit By Rain

The rain that fell over the Bulkley Valley area on Thursday morning has been a great benefit to the crops. The rain has helped to water the crops and has helped to keep the soil moist. The crops are now growing well and the farmers are happy.

Stettner Kinsman Donates \$1,000 To Memorial Hall

The present drive to raise \$10,000 for the Stettner Kinsman Memorial Hall is being aided by a donation of \$1,000 from the Stettner Kinsman family. The money will be used to purchase materials for the hall.

The Stettner Kinsman family has been instrumental in the development of the Stettner Kinsman Memorial Hall. The hall is a fine example of the family's contribution to the community.

Tripodding Hay
When weather conditions are not good for the field, it may be better to store hay in bales or stacks or to stack it in a shed. Hay may be stored in a shed, but it must be covered with a tarp or plastic to keep it dry. Hay should be stored in a dry, well-ventilated area and should be kept away from fire.

Canada's Apples

Crop Smaller This Year

Oranges. There was quite a heavy crop of oranges and grapefruit around year as there were in 1931.

The Bureau of Statistics the first estimate of California fruit crops said yesterday that the orange and grapefruit crops will be smaller than last year. But part of all other fruits will be up to some extent.

Oil Output Expected To Hit 300,000 Barrels

By C. G. HESLER, B.A.
About one year from now, the present oil output of the Province of Alberta will reach a level of production level exceeding 300,000 barrels per day, according to the latest figures from the Alberta Oil Producers' Association.

The 1955 peak is expected to be reached in the latter part of the year, when the output of the province will reach a level of 300,000 barrels per day, according to the latest figures from the Alberta Oil Producers' Association.

Production of oil in the province has increased steadily since 1945, when it was about 100,000 barrels per day. The increase is due to the discovery of new oil fields and the development of existing ones.

These people in the crowd at the Stettler Exhibition, which opened last night, are waiting to see the new exhibit, "The Story of the Stettler Exhibition." The exhibit is a collection of photographs and documents that tell the story of the Stettler Exhibition from its inception in 1901 to the present day. The exhibit is located in the main hall of the exhibition grounds and is open to the public from 10 a.m. to 6 p.m. daily.

Alberta Has Largest Geophysical Activity

Alberta is the province with the most geophysical activity in Canada, according to a report by the Canadian Geophysical Survey. The report states that Alberta has the highest number of earthquakes, followed by British Columbia and Saskatchewan. The survey also found that Alberta has the most extensive network of faults and fractures. This geophysical activity is due to the province's location in the western part of North America, where the North American and Pacific tectonic plates meet. The report also notes that the geophysical activity in Alberta is generally of low intensity and does not pose a significant threat to life or property.

Donalds Board of Trade Plans Several Projects

The Donalds Board of Trade held their October meeting on the town hall on Wednesday. The board discussed several projects and plans for the future. The board is currently planning a new road project and is also considering the construction of a new building. The board is also planning to hold a series of public hearings on the proposed projects.

The board also discussed the results of a recent survey of the town's residents. The survey found that the majority of residents are in favor of the proposed projects. The board is also planning to hold a series of public hearings on the proposed projects.

I would like to say **THANK YOU** to all my friends who offered to help in any way when I moved to my new state. I couldn't possibly put all you good friends to work.

A special thank you to my staff, my family, and my dear friends who did help me. I may live alone in this world but I certainly don't make to feel alone.

I would like to say thank you to the members of **Delta Xi Beta** for their support and assistance in doing this new venture.

Many thanks to all who work with the **P & K Construction** and **Stettler Planning Mtl** for putting up with my grumbling and indecisiveness.

Many thanks to all who sent me beautiful flowers

Many thanks to our many customers who have helped make this possible. We will do our utmost to continue serving you to the best of our ability.

GOVERNMENT OF ALBERTA

D.A.'s Corner

By R. P. POOLE, B.A.

WATCH THAT TRACTOR

The author writes in a humorous and satirical style about the tractor industry in Alberta. He discusses the various models and features of tractors, and the impact of the industry on the province's economy and society.

No Polio From Hens' Eggs

Claims that fowl pox, poliomyelitis, its cause, has been ruled out by Dr. William C. Gibson, professor of the University of British Columbia, in a report of his research.

Dr. Gibson told a meeting of presidents from the National Chicken Club that there was no connection whatever between the fowl pox disease and poliomyelitis, formerly called foot-and-mouth, and the virus disease of the nervous system in man called poliomyelitis.

It is difficult to infect chickens with direct injections of polio virus, he said, and the antibodies which a fowl pox patient produces have been found in chickens.

Dr. Gibson said the egg theory, which says all over the world wherever farm animals have been stricken with polio.

Byronnair Alberta,
November 11, 1952

Editor: Another Independent

On November 7th, Byronnair held a very successful Christmas Supper and many Evelyn friends sat at our table.

Tuesday November 11th Evelyn held their Annual Chicken Supper and I said to Muriel, "Including patronized our supper, it's a return the favor." But only two-thirds of Byronnair's Chicken Eaters had the same idea.

It was good to see the people from both towns, remembering a group of boys around a smoking table. Only too fast on friendliness and good fellowship of "Homestead Days" or even of "The Hungry Thirties" and the prairie is disappearing. Let's keep it alive as long as possible. Because generally we are looking over some little thing which doesn't amount to a damn and will if two little towns are to agree here, do we expect nation

to, and that is why our boys are fighting in Korea.

So here's for more bigger and better Chicken Suppers with the folks from both towns intermingling.

I might add both suppers were super.

Sincerely,

Hollins Cooper

Wetaskiwin Plans \$475,800 School

Application for a permit to construct a sixteen-room elementary and junior high school has been made to the department of education by Harold J. Campbell, chairman of the Wetaskiwin Public School Board.

Estimated cost of the new building is \$475,800, of which twenty-five per cent may be secured through a grant from the provincial government, and another twenty-five per cent as a loan from the provincial government with a low interest rate. This would leave about \$200,000 to be raised from a subscription.

Alberta Wheat Pool Information

The Alberta Wheat Pool's assets include 685 country elevators with 610 annexes in the province and also in the Cretan and Dawson Creek localities in British Columbia, the total capacity being 23,544,850 bushels. The Pool also owns a 5,100,000 bushel terminal at Vancouver and a 2,000,000 bushel terminal at Port Arthur. The grand total capacity of the entire system is 40,644,850 bushels.

Since its inception Alberta Wheat Pool has made the following payments:

Patronage dividends in cash	\$ 5,099,683
Interest on reserves paid prior to 1929	631,253
Repayment of debt to government	8,855,629
Redemption of reserves	6,980,189
Total	\$21,566,754
Patronage dividend paid in reserves	5,983,644

The ownership of the Alberta Wheat Pool and Pool Elevators rests with farmer-owner holders. The farmer can become a member of the Alberta Wheat Pool by delivering 500 bushels of grain to a Pool elevator and purchasing reserves to the value of \$5.00.

The Pool policy provides for the payment of patronage dividends, partly in cash and partly in reserves, in years when earnings are sufficient to justify such action. Members can increase their reserve holdings by patronizing Alberta Pool Elevators.

This substantial Pool elevator system is a valuable property. It is operated for the benefit of the membership.

The Wheat Pool's objective is to keep handling charges as low as possible and return excessive earnings in the form of patronage dividends, also to redeem reserves from members who have ceased to farm.

of British Columbia discovered a large deposit of natural gas, and after other up production, that conventional oil production may result from that same formation even enabled up an additional area of discovery. The Banffshire even strike was a heavy gravity product while the Banffshire had very light gravity oil.

Today the Western Canada total area of 136 discoveries includes 31 oil fields, 31 light oil fields, 31 medium gravity and 31 heavy gravity. The Banffshire has 115 heavy gravity, 11 oil and 11 medium gravity.

oil and 65 natural gas discoveries. All these were oil and gas fields. Banffshire has not resulted in conventional production, and will many of them prove to be major oil or gas fields in addition to the discoveries recorded number and successful refineries, even in all of the new western provinces. Banffshire has added greatly to the oil and gas reserves during 1952.

More than 75% of this year's indicated discoveries have been made in Alberta, Canada's No. 1 oil and gas province, a record which other boundaries (between 65 and 75% of the province's oil and gas reserves) and with oil in being refined and the province has 115 oil discoveries in Alberta in the last year made at 111 exploratory wells. Fifty four of these were oil and 115 heavy gravity, 11 medium and 11 heavy gravity. 11 were oil and 11 heavy gravity, 11 were natural gas.

Twenty three Banffshire strikes gave up either oil or gas during tests in the first and second months of 1952, including 15 with oil and 11 with gas. These strikes struck oil and 11 with a light gravity crude, 8 with medium gravity and 11 with heavy gravity.

Forty Alberta strikes in the north-west sector of the province, were made at the Banffshire in the model of a new exploratory venture, and

Module five with light oil and 6 with gas. A number of other new ventures were also drilled in that province all in the Fort St. John area, some of which found gas in a suitable number of wells.

Southwestern Manitoba has received for three additional 1-1/2 oil discoveries this year. A considerable number of oil strikes and sleep-out wells in the central Division area of Manitoba have given up oil and one near Winnipeg, 6 miles north of Vermilion. They paid oil wells, and a substantial oil producer.

Leo News

Mrs. H. J. Dyer left on Monday to visit her mother and other relatives in Missouri. U.S.A. Her husband, "Dor" accompanied her as far as Calgary.

Miss Langhouse, Danahy, Wagon and Dwyer were short for visitors on Saturday.

Everyone is very much interested in the rural observation project. There is to be a meeting at Leo Hall on Nov. 27th at 8 p.m. Everyone that is interested is asked to attend.

Mr. and Mrs. L. Dyer are going to Ohio this week-end. Walter Smith's new house is under construction and is to be ready in the near future. The new house is flying the Union Jack in the model of a building project.

Oil or Gas Strike At Rate Of One Each Two Days

Operators in Western Canada drilled up 50 more estimated oil or gas discoveries during the past 30 days at an average of one every two days a rate that has also been established for the past and from January 1st to November.

Over 214 of the year's total to dated discoveries as far that 1000 to 150 made at 100 wells from the 100,000 wells resulted in about 100,000 acre feet of gas discoveries. During the month about 30 days of operations eleven of the new strikes were made in Alberta including 8 wells that totalled 11 oil gas discoveries and three natural gas strikes. About in the northeast corner

of British Columbia discovered 6 large gas oil natural gas, and also gave up estimates that commercial production may result from that same formation. Saskatchewan and Manitoba each drilled up an additional acre of discovery. The Saskatchewan acre strike was a heavy gravity product, while the Manitoba well was light gravity oil. Today the Western Canada total score of 100 discoveries included 51 oil finds (51 light gravity 11 medium gravity and 10 heavy gravity) 11 wet gas

strikes and 68 natural gas discoveries. All these were oil and gas strikes, heavy and medium gravity production, and will supply of them prove to be major oil or gas fields in addition to the discoveries recorded, many successful refineries were built in all of the four western provinces, have added greatly to the nation's oil and gas reserves during 1952.

More than 15% of this year's estimated discoveries have been made in Alberta. Canada's No. 1 oil and gas province a region which extends from southern 49° and 50° of the great Canadian empire and which extends to being carried out. The 100 have been 120 discoveries in Alberta for this year made in 111 exploratory wells. Fifty four of these were oil strikes 11 light gravity 3 medium and 1 heavy gravity. 11 were wet gas 1 light and 10 were natural gas.

Twenty three Saskatchewan oil strikes were up. Five oil and two-thirds months of oil, including 10 with oil and 1 with wet gas. These strikes all are 2 with a light gravity grade, 6 with medium gravity and 11 with heavy gravity products.

British Columbia's 6 strikes in the north-east corner of the province were made at one exploratory venture, and

include two with light oil and 4 with gas. A number of exploratory ventures were also drilled in that province all in the Fort St. John area, some of which found gas in a multiple number of zones.

Southwestern Manitoba has recovered for three additional 1 oil discoveries this year. A considerable number of oil and gas strikes were made in the 100,000 acre area of Manitoba. Some gave up oil and one wet gas. They paid oil wells rated as a substantial oil producer.
